

WATER WATCH REPORT

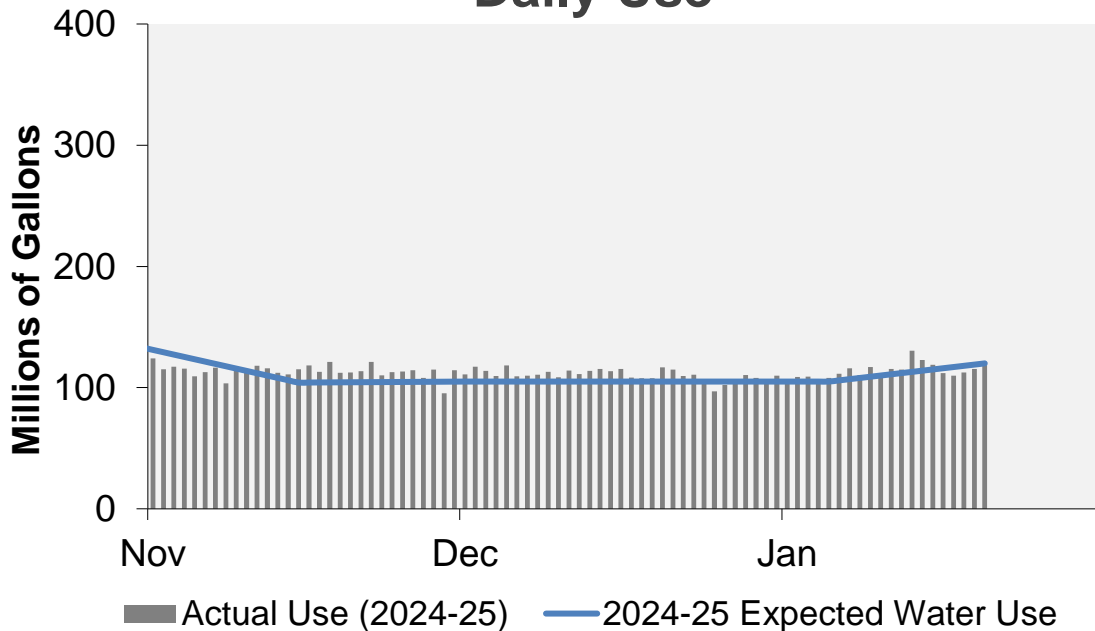

January 21, 2025

Supply Reservoir Contents

Reservoir	Capacity		Current Usable Contents (acre-feet)	Percent Full		
	(acre-feet)			Current	Last Year	Historical Median
	Total	Usable				
Antero	20,122	20,067	18,796	94%	100%	99%
Eleven Mile	97,779	97,779	100,416	103%	102%	102%
Cheesman	79,064	79,064	74,213	94%	89%	83%
Marston	19,108	13,133	9,703	74%	72%	54%
Strontia Springs	7,863	7,163	6,221	87%	82%	93%
Chatfield	28,709	12,415	9,682	78%	98%	84%
Dillon	257,304	249,095	199,758	80%	85%	91%
Gross*	41,811	29,811	7,365	25%	18%	52%
Ralston	10,776	7,276	4,936	68%	74%	64%
Meadow Creek	5,370	4,520	-	0%	0%	14%
Total	567,906	520,323	431,089	83%	84%	82%

*Gross Reservoir storage is limited to 29,938 acre feet in total storage during construction activities. The percent full figures are based on the normal usable capacity of 29,811 acre feet.

Daily Use

Supply Reservoir Contents

Acre-Feet

Note: Denver Water forecasts seasonal reservoir storage contents under dry future weather, normal future weather and wet future weather scenarios.

Gross Reservoir storage is limited to 29,938 acre feet in total storage during construction activities. The percent full figures are based on the normal usable capacity of 29,811 acre feet.

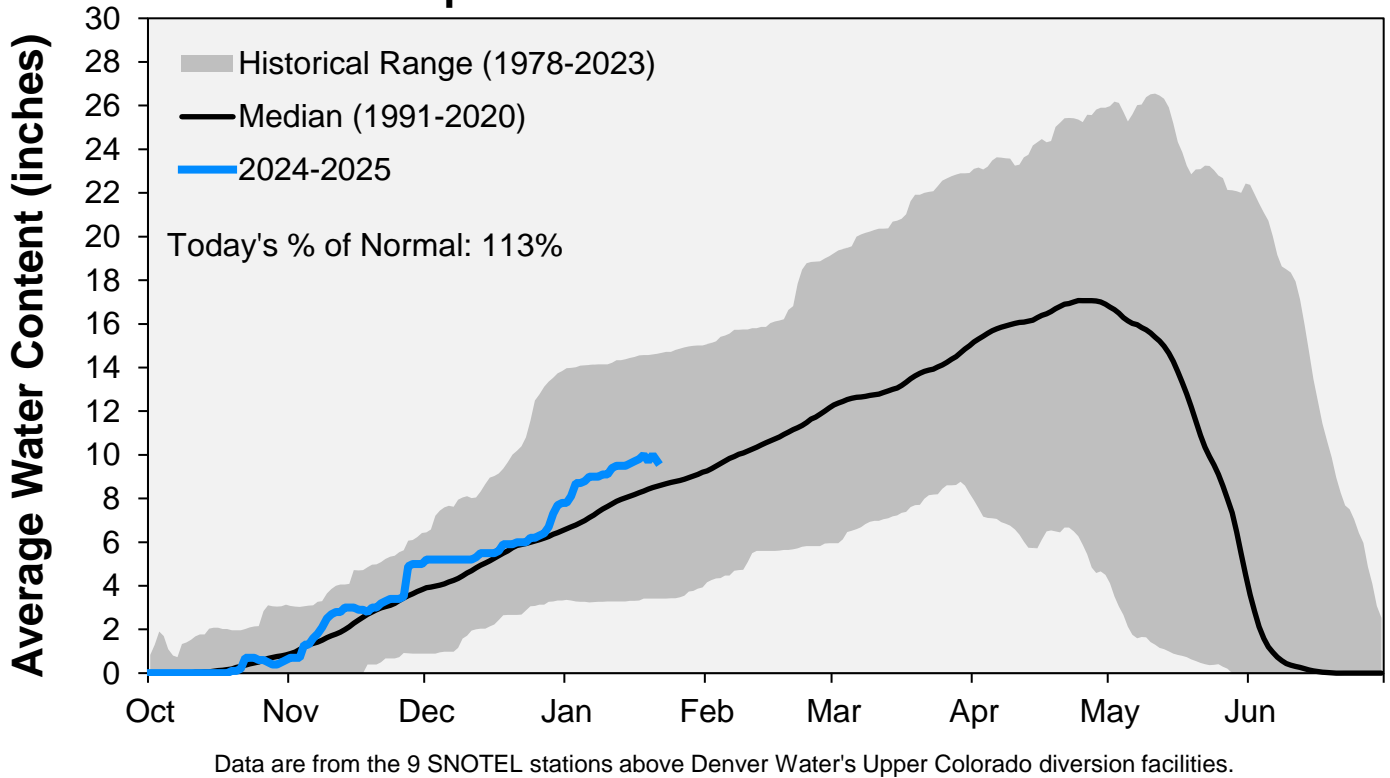

January Precipitation

Snowpack: South Platte River Watershed

Snowpack: Colorado River Watershed

Cumulative Precipitation: South Platte River

Cumulative Precipitation: Colorado River

% of 2025 Expected Daily Use	108%												108%

Notes: 1) "AF" denotes acre-feet. "MG" denotes million gallons. 2) Expected Daily Use is based on historical use with normal weather conditions. 3) The predicted end-of-month supply reservoir contents figures assume normal weather after January 6th, 2025. 4) The differences between predicted and actual end-of-month supply reservoir contents are the result of normal estimation error of daily use, supply, evaporation, carriage losses and raw water deliveries. 5) Predicted supply reservoir contents last updated on January 6th, 2025. 6) Daily water figures are subject to change.

Lake Powell Report*

Colorado River Above Lake Powell Snowpack

Lake Powell Elevation (2001-Current)

* Denver Water gets half of its water supply from the Colorado River and closely monitors conditions at Lake Powell and within the greater Colorado River Basin.
