Strontia Springs	6,859	7,340	7,863	87	93	92
TOTAL	449,337	479,923	567,906	79	85	85

Note: *Gross Reservoir storage is limited to 29,938 acre feet in total storage during construction activities.

Daily Use – Actual vs. Expected

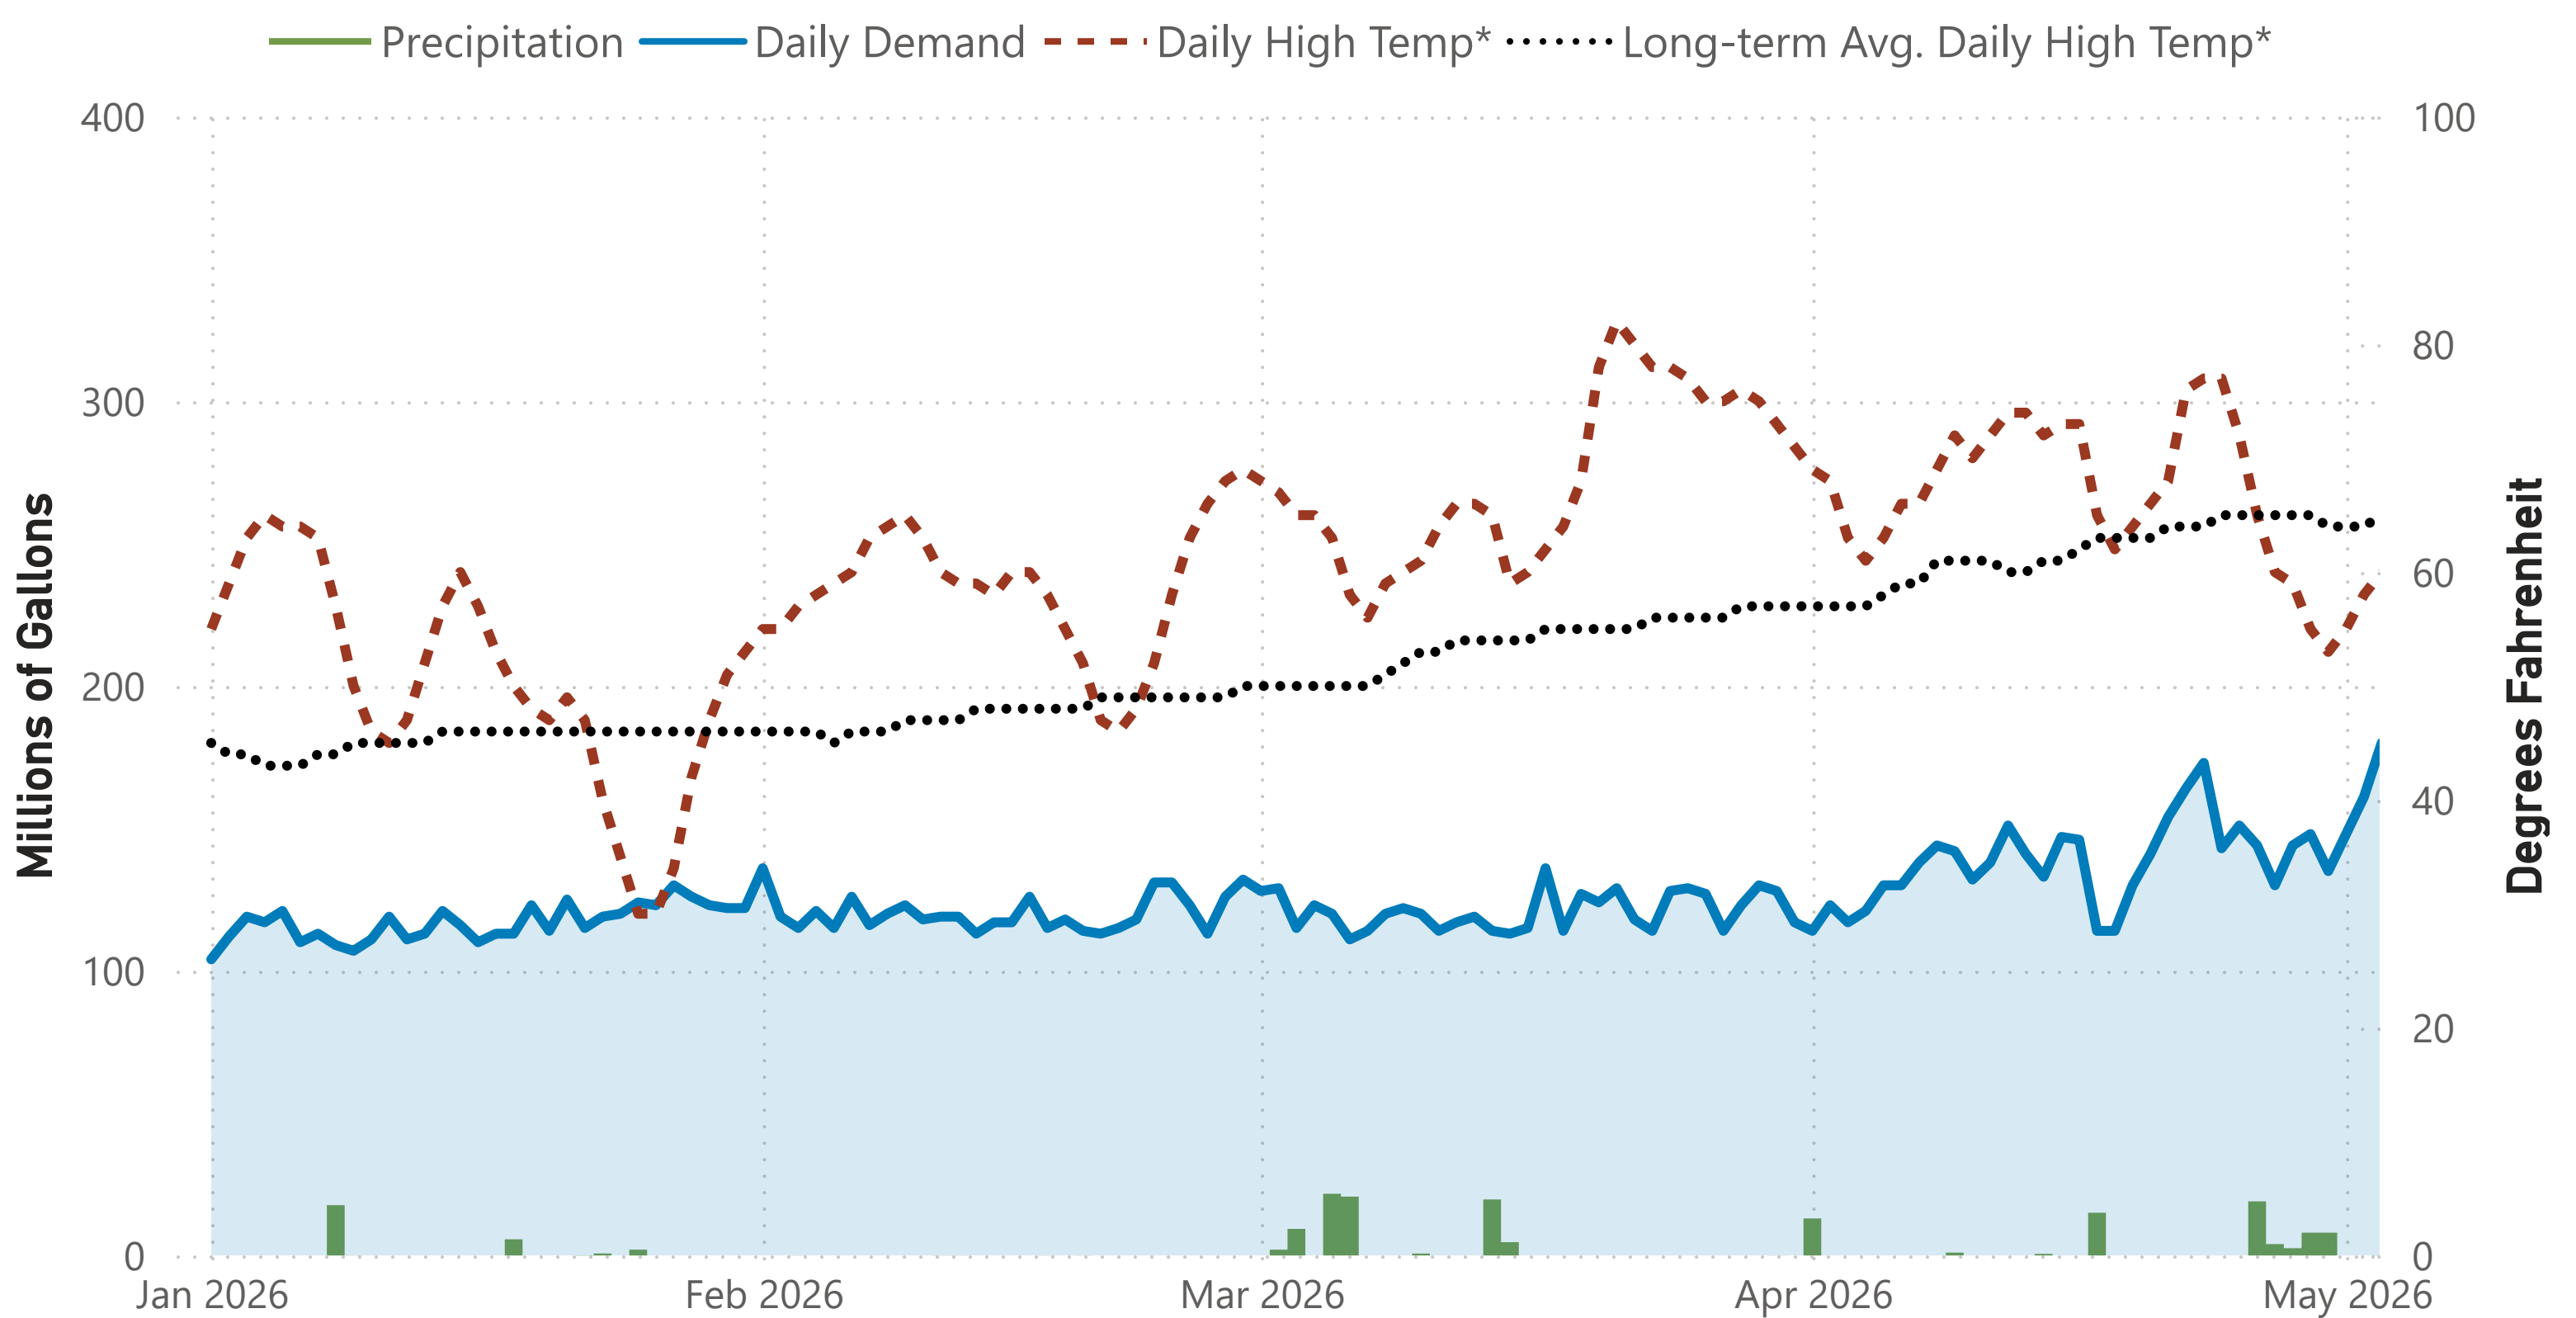

Total Supply Reservoir Contents and Forecasts

Notes: 1) Total system supply reservoir contents are shown in acre-feet (AF). 2) The solid blue line represents actual 2026 storage to date. 3) The dotted lines represent the **most probable forecast, wet conditions, and dry conditions** based on current conditions.

2026 Water Use and Weather Conditions

2026 Denver Water Daily Use Heatmap

Day of Month	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec

29	123		130	148									
30	122		128	135									
31	122		117										YTD-Avg
Monthly Average	117	120	121	138	145								126
Expected Daily Use	109	109	109	120	175	261	300	288	263	170	114	107	117
% of Expected Daily Use	107	110	111	115	83								108

Notes: 1) Values are in million gallons (MG). 2) Expected Daily Use is based on historical use with normal weather conditions. 3) Cell colors represent deviations from **daily** expected use: **white** = expected, **red** = above expected, **blue** = below expected. 4) Values are daily totals by calendar day and month 2026.

Snowpack: Colorado River Watershed

● Median (1991-2020) ● Historical Range (1980-2025) ● 2025-2026

Today's % of Normal
16%

Data are from the 9 SNOTEL stations above Denver Water's Upper Colorado River diversion facilities.

Snowpack: South Platte River Watershed

● Median (1991-2020) ● Historical Range (1980-2025) ● 2025-2026

Today's % of Normal
1%

Data are from the 7 SNOTEL stations above Denver Water's Upper South Platte diversion facilities.

Cumulative Precipitation: Colorado River Watershed

● Average (1991-2020) ● Historical Range (1980-2025) ● 2025-2026

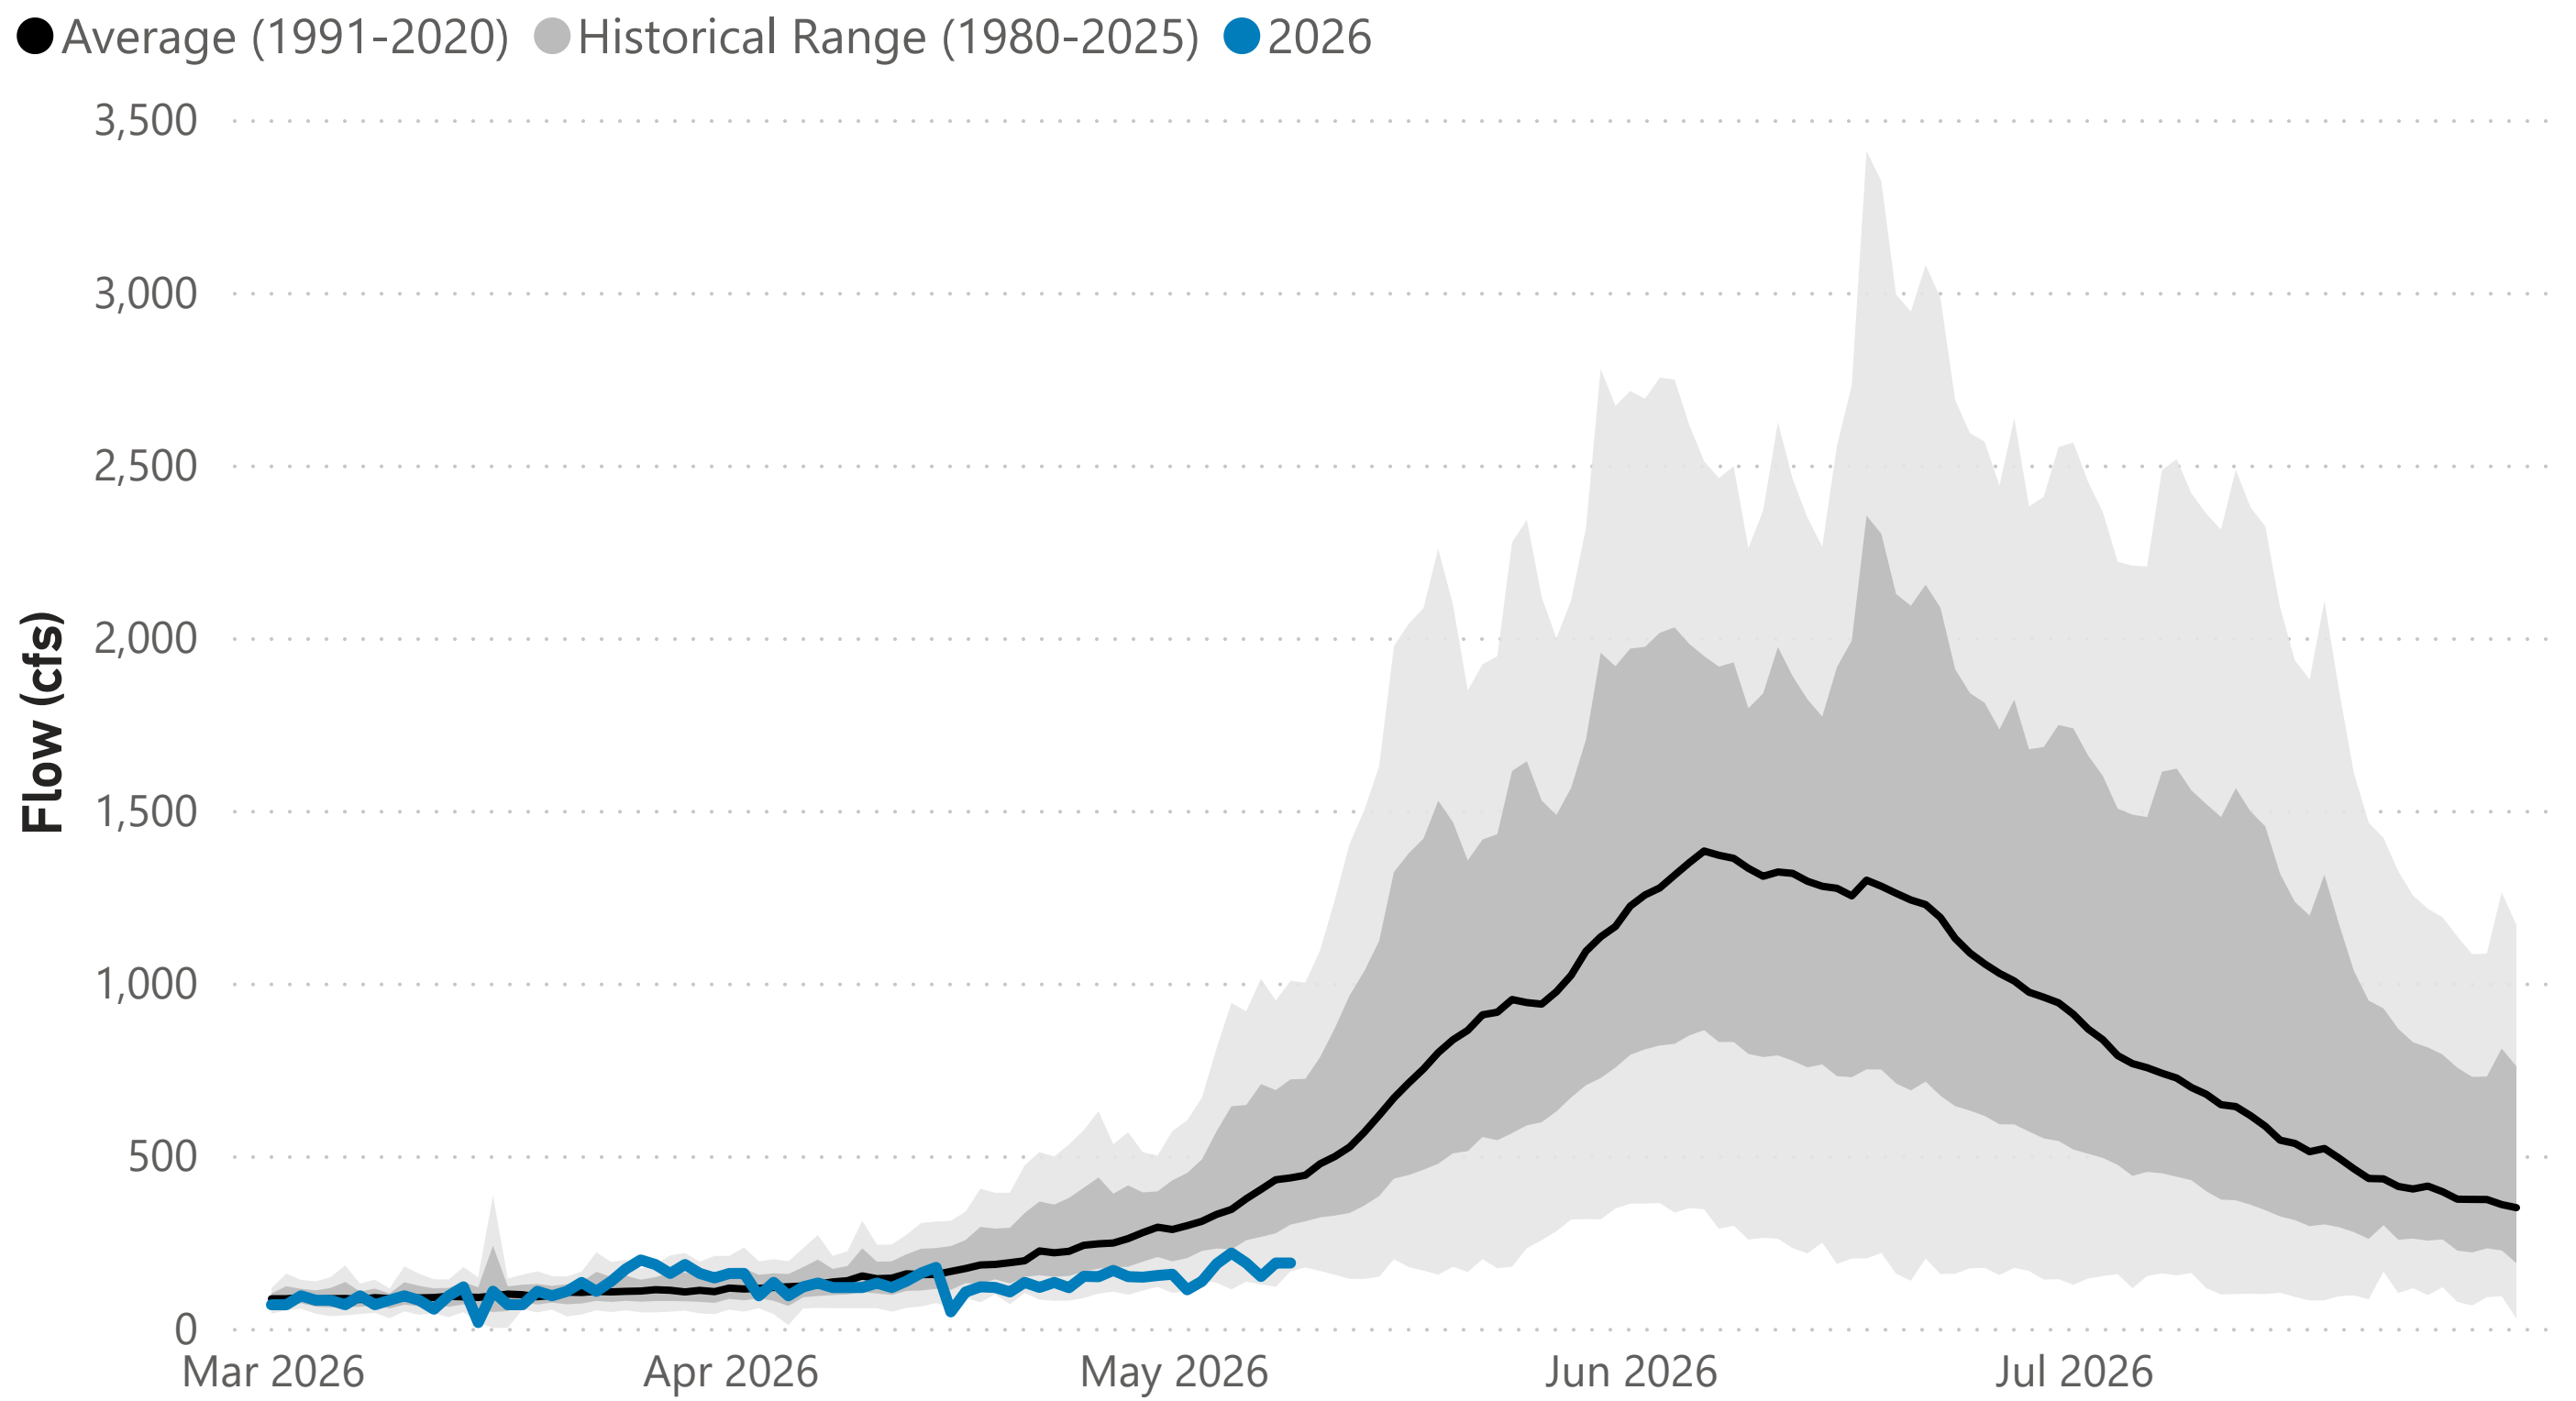

Cumulative Precipitation: South Platte Watershed

● Average (1991-2020) ● Historical Range (1980-2025) ● 2025-2026

Dillon Reservoir Natural Inflow

Cheesman Reservoir Natural Inflow

Lake Powell Report*

Colorado River Above Lake Powell Snowpack

Data are from the 104 SNOTEL stations above Lake Powell.

Lake Powell Elevation (2001-Current)

The historical and current Lake Powell elevation data come from the U.S. Bureau of Reclamation website. The projected elevation data are based on the 24-Month Study from the Bureau's Operating Plan for Colorado River System Reservoirs.

Note: * Denver Water gets half of its water supply from the Colorado River and closely monitors conditions at Lake Powell and within the greater Colorado River Basin.
